Subject: Letter of Recommendation for WGM Group

To Whom It May Concern:

I have been asked on behalf of WGM Group to submit a letter of recommendation. I am honored and delighted to do so.

Hellgate Elementary utilized the services of WGM Group as its engineering firm of record on its \$13million dollar "Campus Enhancement" Project. In fact, WGM Group was with the district every step of the way from the initial public hearing phase, the bond passage campaign, through the project design process. At no time did the school district ever have reason to question its decision to partner with WGM Group. The thoroughness, project understanding, and attention to detail brought to our project by WGM Group has paved the way for our project design and subsequent construction to be one without delays and on schedule to be completed within timelines and within the budgetary constraints the district operates under. WGM Group was always available to meet with the district personnel, construction team members, and to consider options that would enhance the project design and help the school district get the "best bang for its buck".

With that stated, this is not the only project that WGM Group has partnered with Hellgate Elementary. The school district has had a professional working relationship with WGM Group for the past twenty years on several facility enhancement projects. As each project has been completed over that time frame, and a new project has surfaced, the school district has consistently gone back to WGM Group to form new partnerships. This return to WGM Group is not because Missoula does not have other firms to partner with. It is because the school district has been treated like a partner in all its dealings with WGM Group and has always received top notch attention and consideration from WGM Group.

In short, there are many engineering firms to choose from. I am sure you will be most judicious in your decision-making process. However, not many engineering firms will give you the same attention, the same commitment, or the same design expertise as WGM Group. Hellgate Elementary for over twenty years has made the right choice in continuously partnering with WGM Group for its major construction projects. Your firm and/or your project committee would be wise to take serious look at what services WGM Group could offer.

If you have any questions or need additional information, please call me at (406) 728-5626.

Sincerely,

Douglas Reising, Ed.D.

Superintendent, Hellgate Elementary
